Health Equity				
26	Race, Ethnicity, Language and Disability Status (RELD) Stratification Measure	TBD	TBD	TBD

¹ The Quality Council recommended pursuing a pilot of the Person-Centered Primary Care Measure (PCPCM).

² NCQA allows organizations to expand the denominator age range to 40-74 years of age. The available benchmarks for this measure, however, are commonly for the 50-74 years of age range.

³ This measure is applicable for Medicaid only and is not intended to be used in any commercial payer contracts.
